

ATAK enabled Smart Phone is the latest unlocked Samsung series phone approved on the NAIP list. This phone comes fully provisioned to connect to a user's TAK network of choice. If a user does not specify an initial TAK network connection, all kits will be delivered with a live connection to a test server for set up and initial training. Package comes with a tactical phone case, phone charger and a battery pack.

Options Include:

- **Tactical or Non Tactical Phone**
- **FirstNet connection (for authorized users) or unlocked for cellular service of your choice**
