

BUILT TOUGH

THE WINTAK ENABLED LAPTOP FEATURES THE PANASONIC TOUGHBOOK, A SEMI-RUGGED LAPTOP THAT FEATURES AN INNOVATIVE MODULAR DESIGN AND LONG HOURS OF BATTERY LIFE WITH 1TB SSD, INTEL CORE I7, 32 GB RAM, 5G AND 14" IPS TOUCHSCREEN. THIS LAPTOP COMES FULLY PROVISIONED TO CONNECT TO A USER'S TAK NETWORK OF CHOICE. IF A USER DOES NOT SPECIFY AN INITIAL TAK NETWORK CONNECTION, ALL KITS WILL BE DELIVERED WITH A LIVE CONNECTION TO A TEST SERVER FOR SET UP AND INITIAL TRAINING.

Options Available:

- Available with Starlink or Starshield satellite connection
- Independent TAK Server housed within Toughbook - a core component of the Team Awareness Kit (TAK) ecosystem, functioning as a central hub for data sharing, communication, and collaboration among various TAK clients (like ATAK, iTAK, and WinTAK).
- Tactical Radio bridge (users choice of tactical radio)
- Configured for secure and non secure locations
