TACTICAL AWARENESS KIT (TAK)

- TAK is hardware, software, tech support
- TAK is an initiative, not a single tech or vendor
- For use in peacetime, contingencies and wartime
- Provides a real-time, common data picture shared by all users, control centers, and leadership (tactical COP)
- Allows real-time data entry at the tactical level
- Reduces/eliminates all paper-based processes
- Significantly reduces voice communications
- Provides secure messaging and file transfer
- Encrypts data at rest and in transit
- Provides built-in geolocation - blue force tracking
- Utilizes COTS end user devices (smart phones, tablets)
- Communication path agnostic
- Uses LTE, 4G, 5G, WiFi, SatCom, tactical radios
- Provides hundreds of 3rd party digital tools via plugins
- Affordable, upgradable and easily deployable
